

## Cabot Cliffs, Nova Scotia opening Summer 2015

The new Bill Coore & Ben Crenshaw designed Cabot Cliffs is currently scheduled to open by mid-summer, 2015.

This breathtaking beauty will be open for limited play in 2015 while maturing for their grand opening in 2016. This is a great opportunity with rates reflective of "preview conditions" and tee times in 20 minute intervals! Global Golf Post suggested Cabot Cliffs was reminiscent of "***Pebble Beach on steroids***"!

There are to be 24 more guest rooms added to the property for the anticipated increase in golf groups the new course will bring.

Renowned for its spectacular landscapes and unspoiled coastal lands, Cape Breton Island is a land like no other. From hiking trails just outside Cabot Links Lodge to the famed, 186-mile long Cabot Trail, opportunities abound for the intrepid explorer. Touted as one of "The World's 10 Best Islands to Visit" by National Geographic Traveler, more than one-fifth of Cape Breton is preserved as a national park, making it a vast and veritable hiker's paradise.

There is so much to experience here.
